PREFACE

This publication contains a comprehensive directory of full-time business agents and representatives, a directory of labour organizations, and statistics on the growth and distribution of union membership in Nova Scotia.

Section A lists the names, addresses, and office telephone numbers of business agents and international representatives for various unions in the province. The list also includes union officials outside Nova Scotia if they are frequently involved in assisting Nova Scotia locals. This section is meant to provide a quick and easy reference to full-time officials in union locals across the province.

The first part of Section B lists the names and addresses of executive officers for each union local in Nova Scotia. In addition it includes all those officials listed in Section A, and indicates which locals are under federal jurisdiction. The unions are listed in alphabetical order of their short titles and their congress affiliations are given in parentheses. The parenthetical note "CLC chartered" means that the union is directly chartered with the Canadian Labour Congress.

The second part of Section B provides a list of officers of the District Labour Councils, the Building Trades Councils, and the Nova Scotia Federation of Labour. It also includes the addresses of Canadian Labour Congress representatives in Nova Scotia.

The information in Section B is current as of July, 1982. Many locals, however, elect new executive officers each year. If a user of this directory wants to be certain that his correspondence is addressed to the current officers of a particular union local, he can verify the directory listing by contacting the appropriate full-time business agent or representative for that union as listed in Section A.

Section C contains statistical information on union membership by area, industry and congress affiliation. Unless otherwise indicated the statistics were generated from data compiled by the Nova Scotia Department of Labour and Manpower.

A large portion of the information presented in this publication was obtained through direct contact with labour officials. Other sources include the Statistics Canada CALURA (Corporations and Labour Unions Return Act) returns and the financial statements that union locals file each year with the Nova Scotia Department of Labour and Manpower.

Appreciation is expressed to employers and union locals for their co-operation in providing the required information. Such co-operation makes possible a more accurate and timely publication.

This report was prepared by Cathy McPhee under the supervision of Gerry Ridgeway.

SECTION C

SELECTED LABOUR STATISTICS

SECTION C

SELECTED LABOUR STATISTICS

This section contains both current and historical statistics on union membership in Nova Scotia.

Table 1 provides, for each union listed in Section B, information on congress affiliation, total membership, number of locals, and average local membership size. In addition, the commonly used abbreviations are included. The data in this table are currrent as of July, 1982.

Table 2 shows union membership figures by congress affiliation for the years 1978 through 1982.

Table 3 shows the distribution of unions by membership size from 1978 through 1982.

Table 4 shows union membership figures for the nine parent office areas of the Canada Employment and Immigration Commission for 1982. Some difficulty was encountered in allocating the union locals into the various C.E.I.C. office areas. Hence, this table gives only a general idea of the spatial distribution of locals throughout the province.

Figure 1 and Table 5 show the growth pattern of union membership in Nova Scotia over the past 15 years. For the years 1968 through 1982, total union membership is given both as an absolute annual figure, and as a percentage of the total annual non-agricultural paid work force. Data for the years 1968 through 1974 in the "Non-Agricultural Paid Workers" column of Table 5 have not been revised to reflect the changes introduced by Statistics Canada's 1975 Labour Force Survey.

Membership figures were available for 604 of the 605 locals and independent local organizations for 1982. Information from the 604 locals was used to derive the membership statistics used in Section C. A large number of the membership figures are estimates. This limitation should be kept in mind when using statistics from this publication.

Included in the CLC are district labour councils, provincial federations of labour, directly chartered locals, and national and international unions.

CENTRAL LABOUR CONGRESS

A national federation of unions, directly chartered locals, provincial federations of labour, and local labour councils. The Central Labour Congress engages in legislative lobbying at the national level, conducts training sessions for union officials, and participates in international trade union activities. Examples of central labour congresses are the CLC and the AFL-CIO.

Each local has a constitution and elected officers who negotiate and administer collective agreements for their local members. In most cases, the officers are assisted by a full-time business agent or union representative. A local is financed by dues from its members. A portion of the money received is sent to the union to which the local belongs. In return, the union provides various services, such as strike assistance and full-time representatives. Some unions call their locals "branches" or "units".

The union sets general policies for its locals, assists them in the negotiation and administration of collective agreements, and coordinates their activities.
